Dear Colleagues,

The KHIMA Board of Directors are pleased to announce plans for the 2020 Annual Meeting to be held June 8—9, in Richmond, KY.

As you know, the health information management (HIM) profession continues to evolve to a wide range of roles and responsibilities within the healthcare ecosystem. HIM professionals continue to have the opportunity to influence and shape the ways in which health information is used to deliver quality patient care. Therefore, we must continue to learn and grow in the everchanging healthcare environment and ensure that our impact is made on the next chapter of HIM.

We hope that you will join us as we come together to learn from experts as well as each other, to embrace the opportunities we have in the ever evolving healthcare industry, and to promote the HIM profession and KHIMA.
